Wines, Liquors and Beer.  
California Beer, 25 Cts.  
Per Bottle.  
Broad St., - GLOBE, A. T.

**J. P. RODGERS,**  
Watchmaker and Jeweler

**PROFITABLE ARIZONA MINES.**  
In a talk the other day, between  
some well known mining men in re-  
lation to the mineral deposits in Arizona  
and the depth the paying ore was found  
in our richest mines, the following in-  
teresting facts were elicited and noted  
down at the time:  
The United Verde mine at Jerome,  
with shafts and drifts on it 100 feet  
deep, was offered for sale for four years  
without any buyers. At last W. A.  
Clark, of Montana, took the property  
and after sinking to 300 feet he had 96  
feet of solid ore, and at 500 feet it is  
reported the ore body is 150 feet wide.  
Clark has refused \$20,000,000 for this  
mine.  
The Congress mine at 150 feet was  
considered as a fraud by no less a per-  
sonage than Diamond Joe, but at  
300 feet it was a bonanza, and now at  
800 feet it is held for \$3,000,000.  
The Fortuna mine at 150 feet was  
bought by Chas. Lane for \$140,000;  
now at a depth of 600 feet you could  
not buy it for \$3,000,000.  
The King of Arizona was sold for but  
\$30,000 when at a depth of 100 feet,  
while today with a depth of 500 feet it  
is held at \$1,000,000.  
The famous Copper Queen mine at  
Bisbee at a depth of 200 feet, was  
about to be sold for debt. Now at  
800 feet it has sufficient ore in sight to  
run 50 years and money cannot buy it.  
The Crowned King mine was \$33,000  
in debt when down 165 feet. Now at  
a depth of 500 feet, debts all paid and  
regular dividend declared, it cannot be  
purchased for less than \$1,000,000.  
The Pearce mine was sold for \$275,000  
when at a depth of 150 feet had been  
reached. It is now producing \$250,000  
annually and is not for sale.—Frontier.

**THE STAR ROLLER MILLS.**  
The Star Roller Mill at Safford is  
kept busy night and day filling orders  
for the excellent grades of flour it man-  
ufactures. The machinery of this mill  
is first class in every particular and the  
miller, Mr. C. R. Beal, has had 25  
years' experience in the business. The  
"Silver Sheaf" brand of flour manufac-  
tured by this mill is the equal of the  
famous Pride of Denver. The "Belle  
of '98" flour is not equalled in the val-  
ley and the "XXXX" brand is a good  
straight grade. The mill is owned by  
Z. C. Prina, James C. Parley and  
John Blake, under the firm name of Z.  
C. Prina & Co. This firm now has an  
enormous stock of wheat on hand, but  
continues to pay the cash for all that it  
is offered; they also pay cash for bar-  
ley.  
It is the intention of Mr. Prina, the  
active manager, to ship into the valley  
a carload of a fine quality of seed  
wheat this fall, which will be sold to  
the farmers at actual cost price.—En-  
quirer.

## THE COPPER INDUSTRY.

**It is in a Flourishing Condition—13-  
Cent Copper Predicted.**

Copper producers as well as consum-  
ers are very generally looking for a 13-  
cent market, says the Western Mining  
World. For the first time in months  
(we almost said years), this sharp ad-  
vance in copper is not a mere marking  
up of prices on a dull but firm market,  
but is accompanied by heavy dealings,  
some contracts reaching for months.  
One copper broker in New York who  
does business for some of the smaller  
concerns, reports that in the last few  
days he has sold over one million  
pounds, while another made heavy  
sales for spot November delivery. Oth-  
ers have sold as far ahead as January.  
In this condition of affairs there is lit-  
tle wonder that sellers of copper are  
hopeful and buyers more or less an-  
xious.  
The present strength of copper is  
explained partly on the theory that the  
large producers, having recently dis-  
posed of a large amount of their output  
ahead, are resting, with the market  
practically bare of the metal.  
Then again, the statistical position  
of the metal, particularly abroad, is an  
ideal one as viewed from the producer's  
standpoint, and would apparently lead  
to the conclusion that a 14-cent or even  
15-cent market might yet be attained  
before this year reaches its finish. The  
visible supply of copper abroad on  
August 15th was barely 28,605 tons, a  
decrease of 1256 tons since August 1st,  
and a decrease of 3350 tons since Jan-  
uary 1st.  
The July returns show that while the  
production of copper in this country  
has been small, compared with previous  
months, exports of the metal have  
shown an enormous increase. The  
United States production of copper  
(long tons) for July aggregated 16,052  
tons, compared with 19,390 tons the  
previous month, and 13,347 tons in  
July of last year. In fact the July  
production was the smallest of any  
month so far this year, the maximum  
production of any month being April,  
when the figures were 22,909 tons.  
While the production of copper in the  
United States fell from 19,390 tons in  
June to 16,052 tons in July, exports  
of the metal have jumped from 9,365  
tons in June to 15,354 tons in July.  
July exports of copper have been the  
largest of any month thus far this year.  
With a production of 16,052 tons per  
month, and a monthly export move-  
ment of 15,354, leaving only 698 to  
meet the domestic demand, and with  
that demand reviving, a copper famine  
is among the possibilities, not to say  
probabilities, of the future.

## GERONIMO AT OMAHA.

**Royal makes the food pure,  
wholesome and delicious.**

Gerónimo, the famous Apache chief  
who has been dead to the world since  
he surrendered in 1886, is the liveliest  
part of the Indian contingent for this  
section of the globe it presents.  
At the last sham battle, Saturday  
evening, clad in a neat fitting dark  
blue cavalry jacket, trousers and boots  
such as are worn by Indian police, the  
only
